

Ponte Technologies focuses on research, design, and implementation of new generation digital communications, delivering high value-added custom hardware and software solutions.

- Decades of Experiences in China and Japan Telecom Marketplace
- Deep Understanding of Customer and Market Requirements
 - Multi-site Research & Development
 - Software and System Custom Design Capabilities

Empowering technology transformation

ALL-OPTICAL Systems for Data, Voice, Cloud Centers for metro applications

Seamless integration of WiFi/LTE Wireless Broadband

IP Video Surveillance for Smart Grid and Transportation applications

Precision timing and sync applications for telecom, transport, utility

Just in-time NMS/BOSS customization with integration DevOp architect

Unleash the power of **data** by **transforming**
your digital infrastructure.

Overcome Legacy
Constraints and Bandwidth Limitations

Building High Resilience, Reliability, Manageable Networks

Accelerate your Business and Maximize Growth Opportunities

Best End-user Experience

In 2003, the group parent company Choiceway was founded to focus on broadband access and optical networking core

Partnership

Won and implemented several large-scale metro-ethernet backbone and fiber-to-home in Jiangsu, Xi'an, Henan provinces

Choiceway International was established in Hong Kong to expand overseas business in Taiwan, Philippines

Custom Design

Won broadband access and Multi-services switching projects in Philippines PLTN and Indonesia

Delivery

Won broadband Wireless access, Core Switching and BOSS in Japan telecom

Established branch offices with engineering as well as customer support services centers in Japan and Taiwan

Service

In 2017, set up R&D subsidiary company Ponte Tech in Shenzhen and other cities to research and design LTE/5FG related timing products
